Activities Year 1	Activities Year 2	Activities Year 3
Map	Professional Development	Program Evaluation for Needs
Draft/Revise	Implementation	Report Cards Updated
Approve	Benchmarks	
Purchase Materials		

* “Light” revision

Updated 5/1/10

Considerations in Establishing Curriculum Cycle Order

- Student test scores and data
- Last date of materials and textbook purchase
- The connection between the curricular areas (LA is a foundation for other areas, etc.)
- The experience of teaching personnel
- The disconnect between the curriculum “document” and the “actual” curriculum
- The effectiveness of what is presently in place
- The comparative magnitude of curricular areas (how much training is involved, how many skills and standards are involved, etc.)
