Dear Middle School Parents and Guardians,

Recently at the middle school winter dance concern arose as to the dress code standards at DTS. As a result this letter is going home to you so you are aware of the school and district dress code policy for your children. Attached is the current approved district dress code. Please understand that it is the obligation of the administration and the faculty to enforce the existing dress code during school sessions and at all after school functions and activities.

The procedure, should a dress code violation occur, is to contact the child's parent so that suitable clothing may be provided. In the event that a parent can not be reached or is unable to provide replacement clothing, we will offer a school T-Shirt, sweat pants, or sweat shirt, whichever is appropriate under the circumstances. Students who are waiting for a change of clothes to be delivered will be removed from the event, activity or session while waiting. Rest assured that our faculty and administration will handle any dress code situations that may occur with respect and sensitivity for the individual.

It is our intent to provide an emotionally and physically safe environment for your children when participating in school functions. To that end, we solicit your support and cooperation with the district dress code. Thank you for your help.

Sincerely,

Patricia M. Ryan, Ed. M.
Principal
